 Do you wish to speak at the hearing? No

The Honorable Council Chair and Members:

Resolution 16 - 275

URGING THE HONOLULU COUNTRY CLUB TO FULFILL ITS OBLIGATION TO MAINTAIN THE SALT LAKE WATERWAY AND ITS BANKS.

Written Testimony My name is Dante Carpenter, ^{former} President, AOA CCV, Phase 2, requesting this Honorable Body to take a positive action on behalf of its thousands of citizens who inhabit condominiums, apartments and homes along the banks of the Salt Lake Waterway in Moanalua.

Over 11 1/2 years ago, the Honolulu Country Club (HCC), the City and County of Honolulu, and the State Department of Health entered an Agreement and the Honolulu Country Club acknowledged its responsibility to maintain the Salt Lake Waterway and its banks.

MISC. COM. 2851

By its own admission, the HCC is derelict in fulfilling its legal obligation to maintain, for sanitary, safety and health concerns of the citizens living on its borders in homes, apartments, condominiums, etc.

Algae now proliferates the surface of the lakes and streams abutting the Golf Course between the affected homes and apartment buildings. The undergrowth is now approximating 40 feet in height along the banks and the growth of the branches which abound approximates a thick forest!

Smells emanate along with pests, including, cats, mice, rats and other menacing agents unknown to the areas' thousands of residents!

We strongly suggest the Office of the Prosecuting Attorney, Department of Health as well as the Corporation Counsel properly advise the HCC Officers and its Board of Directors that it is in violation of its responsibility, and is open to lawsuit(s) and civil action by governmental bodies as well as individual actions which could ensue with negative financial impact(s) to the HCC operations!

Finally, the City & County of Honolulu, and the State Department of Health are jeopardizing the public health of all its citizens living along the banks of the Salt Lake Waterway by shirking its duty to protect the interests and public health and safety of its residents!

Please expedite the passage of this Resolution 16-275 and implement recommendations at the earliest possible date!

Dante Carpenter
